

NAPSters *(PRF-NAPS correspondents)*

Biafra Ahanonu

@syscarut

Stanford University, USA /

Supervisor: Dr. Mark Schnitzer

"Gentlemen, you can't have unpleasantness in here! This is the Pain Room!"

Andy Tay

@AndyTKP or @andytkp2017

Stanford University, USA / Supervisor:

Dr. Nicholas Melosh

"Materials engineering for pain modulation."

Titilola Akintola

@Lola_carissa

University of Maryland, USA /

Supervisor: Dr. Luana Colloca

"'All in your head?': another look at placebos & facial pain."

Sarasa Tohyama

@SarasaTohyama

University of Toronto, Canada / Supervisor:

Dr. Mojgan Hodaie

"A hole in your brain will not make your pain go away."

Catherine Paré

@ImCatherinePare

McGill University, Canada /

Supervisor: Dr. Michael Sullivan

"Everything hurts and I might be dying: The painful story of catastrophizing."

Kyle Vader

@vader_kyle

Queen's University, Canada / Supervisor:

Dr. Jordan Miller

"How can we 'up our game' when it comes to chronic pain management in primary health care?!"

NAPSters

Ali Alsouhibani

@Ali_Alsouhibani

Marquette University, USA /
Supervisor: Dr. Marie Hoeger Bement
“The effects of exercise on centrally
mediated pain: does the tuning fork
tell us enough?!”

Katrina Cordts

@katipoppert

Oregon Health & Science University, USA /
Supervisors: Drs. Anna C. Wilson & Amy Holley
“Dear Diary: Having a parent with pain is
a pain.”

Abid Azam

@OneMindWanderer

York University, Canada / Supervisor:
Dr. Joel Katz
“Pain is really stressful, so you should
practice meditation, hypnosis, and
stick needles in your ear.”

Yarim De La Luz-Cuellar

@atarii_cuellar

Center for Research & Advanced Studies of
the National Polytechnic Institute, Mexico /
Supervisor:
Dr. Vinicio Granados-Soto
“Please, don’t tell my rats that my mom also
has fibromyalgia...”

Fleur Baert

@fleurasinfleur

Ghent University, Belgium /
Supervisor:
Dr. Tine Vervoort
“My child is in pain and it’s not fair!”

Shahrzad Ghazisaeidi

@Shahrzadghs

University of Toronto, Canada / Supervisor:
Dr. Michael Salter
“Pain, Sex and Epigenome!”

Nicholas Giordano

@dvcipm

Defense and Veterans Center for Integrative Pain Management, USA / Supervisors: Drs. Krista Beth Highland & Trip Buckenmaier

"Early application of regional anesthesia associated with improved patient-reported pain outcomes long after combat injury."

Kwo Wei Ho

@kwoweihho

University of Florida, USA / Supervisor: Dr. Roger B. Fillingim

"It hurts? Don't blame the doctor."

Diana Goode

@Diana77892840

University of New England, USA / Supervisor: Dr. Derek Molliver

"Wait, mitochondria is more than just the powerhouse of the cell!"

Mark Landy

@MarkLandy3

University of Texas Southwestern Medical Center, USA / Supervisors: Drs. Helen Lai & J. Johnson

"Tis but a scratch! A mere flesh wound won't stop my pain-free mice."

Caroline Hinkle

@hinkle_carly

University of Maryland, USA / Supervisor:

Dr. Raimi Quiton

"Optimists feel more pain, so go ahead and expect the worst."

Grace Mosley

@runDRG

Icahn School of Medicine, USA / Supervisor: Dr. James Iatridis

"I couldn't ask my rats to rate their back pain 1-10, so I poked them and looked at what genes were turned on instead."

Jamie Moy

@JamieKMoy

University of Pittsburgh, USA /
Supervisor: Dr. Michael S Gold
"Of mice and men: the excitable
neuron."

Matthew Sapio

@MattSapio

National Institutes of Health, USA /
Supervisors: Drs. Andrew J. Mannes & M.
Iadarola
"Jumpstarting pain drug development with a
few petabytes of data"

Chung Jung Mun

@Dr_Moon90

Johns Hopkins School of Medicine,
USA / Supervisors: Drs. Claudia
Campbell & P. Finan
"Sleep better and you will feel less
pain and have less need for opioids."

Saurab Sharma

@link_physio

University Of Otago, New Zealand /
Supervisors: Drs J. Haxby Abbott & M.P.
Jensen
"Pain at the top of the world."

Helen Rodgers

@HMRodgers4

East Carolina University, USA /
Supervisors: Drs. Kori Brewer & S.
Clemens
"Morphine gets its mojo back, with
a little help from its dopaminergic
friends."

Tayler Sheahan

@shea_tay

University of Pittsburgh, USA / Supervisor:
Dr. Sarah E. Ross
"They're going the distance: Spinal projection
neurons that relay pain and itch to the brain."

Richard Slivicki

@Rslivicki

Washington University in Saint Louis,
USA / Supervisor: Dr. Robert W.
Gereau

“Peripheral cannabinoids for pain:
reefer without the madness?”

Perri Tutelman

@PerriTutelman

Dalhousie University, Canada / Supervisor:
Dr. Christine Chambers

“ When you survive cancer, a headache isn’t
just a headache.”

Larissa Strath

@larissastrath

The University of Alabama at
Birmingham, USA / Supervisor: Dr.
Robert Sorge

“When you eat bad food, your body
gets mad and wants to hurt you.”

Morika Williams

@MorikaWilliams

North Carolina State University, USA /
Supervisor: Dr. B. Duncan X. Lascelles

“Wow, babies do actually feel pain! And
believe it or not it can be a pain in the butt
later on too.”

Angel Torrado-Carvajal

@Angel_TC

Massachusetts General Hospital,
Harvard Medical School, USA /
Supervisor: Dr. Marco L Loggia

“Unveiling chronic pain biomarkers
and objective diagnosis through
means of artificial intelligence.”

Pau-Yen Wu

@yenwuyen

University of Kansas Medical Center, USA /
Supervisors: Drs. Julie A. Christianson &
D. Wright

“How can stressful events ruin a mouse’s life.”
